

# SCOTT PROTECTION WITH D3O LP2 PRO

Winner

D3O USES PATENTED, PATENT-PENDING AND PROPRIETARY TECHNOLOGIES TO MAKE RATE-SENSITIVE, SOFT, FLEXIBLE MATERIALS WITH HIGH SHOCK ABSORBING PROPERTIES.

The D3O® LP2 Pro is the latest addition to the most advanced breathable limb protector range engineered by the experts in impact protection at D3O.

High levels of humidity are strongly linked to rider discomfort. The enhanced ventilation featured in the D3O® LP2 Pro increases air passage and moisture flow from the body through the pad to maximise comfort in warm conditions, without sacrificing performance.

Building on the tri-ventilation technology used in the D3O® LP1, which offered 45% improvement in breathability, the D3O® LP2 Pro offers similar breathability and comfort while meeting the highest certified level of motorcycle protection.

## PRODUCT FEATURES

- Tri-ventilation for superior breathability
- CE certified to EN 1621-1:2012, Level 2, including optional cold and hot conditions
- Type B coverage
- Manufactured in a highly durable material
- Temperature stable

D3O® LP2 PRO

KNEE

ELBOW
